

## Features

- **720p / 1080p Resolution**
- **Telepresence with Full HD**
- **Dual-Display Video Conferencing Capability**
- **AV Cart Compatible**
- **Plug and Play / Interoperability**  
Ready to use, easy set-up and interoperability with any major video conferencing system
- **Multi-Party Conferencing Capability**  
Ability to connect multiple conversations without additional costs or hardware upgrades
- **Recording Capability with Media Unit**  
Standard inclusion of 1 TB memory space which can store up to 2500 teleconference recording hours
- **Web VU (PC Client)**  
Browser-based connection through PC / Latest browser version required
- **Data Collaboration**  
Ability to work in real-time in shared document via system
- **H.264 High Profile (Low-Bandwidth Requirements)**  
Industry standard for video compression
